

REMARKS

Claims 1, 4, 5 and 21 are currently pending in the subject application and are presently under consideration. Independent claims 1 and 21 have been amended herein. Support for the amendments to claims 1 and 21 can be found, for example, on page 5, line 28 to page 6, line 3 of the instant specification. No new matter has been added.

Amendment or cancellation of claims should not be construed as an acquiescence, narrowing, or surrender of any subject matter. The amendments are being made not only to point out with particularity and to claim the present invention, but also to expedite prosecution of the present application. Applicants reserve the right to prosecute the originally filed claims further, or similar ones, in the instant or subsequently filed patent applications.

Rejection of Claims 1, 4, 5 and 21 Under 35 U.S.C. §103(a)

Claims 1, 4, 5 and 21 stand rejected under 35 U.S.C. §103(a) as being unpatentable over Coffee RA (WO 98/03267), in view of Coffee RA (US 2001/0003148), in further view of Coffee RA (US 6,252,129), and further in view of Weinberg (US 4,837,379).

As amended, independent claim 1 from which claims 4 and 5 depend and 21 require that the fibrin is fabricated using a target that contains calcium. None of the cited references, each alone or in any combination teach or suggest the instant claimed subject matter. Accordingly, Applicants respectfully request that the rejection be withdrawn.
